

## Horse Transportation Vehicle

**Project:** Flooring

**Category:** Slip Resistance/Pedestrian Access

**Completion**

**Date:** July 2006

**Product:** TUFF STUFF

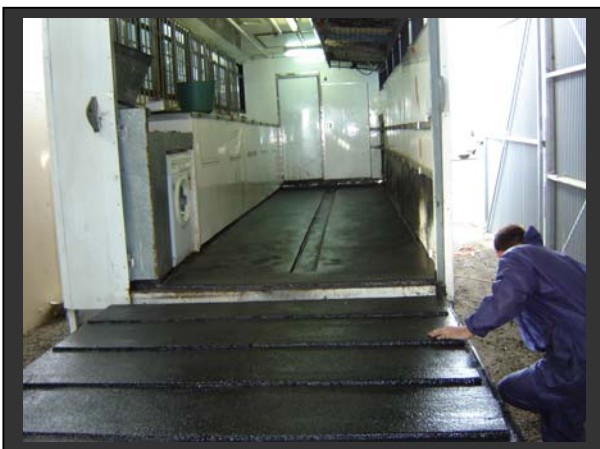

## Job Description

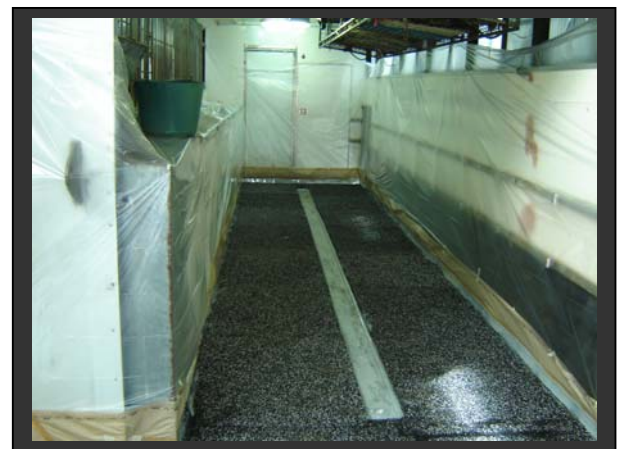

This Semi Trailer is used for the transportation of both horse and rider for a professional Show Horse Jumping team.

Due to the traffic experienced by loading and unloading the horses the old rubber in this trailer was lifting.

Firstly applied were 30mm slow rebound mats and 4-5 mm of TUFF STUFF was applied providing a cushioned, easy clean and slip resistance surface for both handler and horse.
